

# Unlocking the Power of Ubiquinol

## UBIQUINOL

### What is Ubiquinol?

Ubiquinol is the active and the major form of coenzyme Q10 (CoQ10) that naturally occurs in the body.

Ubiquinol is a critical component of energy production for every cell of your body. Therefore, Ubiquinol is concentrated in organs that require the most energy, such as the heart. Oxidative stress increases with age. As we age, our body converts less CoQ10 to Ubiquinol, thereby reducing essential antioxidant protection.

### Ubiquinol dosing

	Blood level	Suggested dose*
Heart failure	> 4 $\mu\text{mol/L}$	300 mg or >
Statin therapy <50 years	> 3 $\mu\text{mol/L}$	150 mg or >
Normal range	0.7–1.2 $\mu\text{mol/L}$	100 mg
Fertility	> 2 $\mu\text{mol/L}$	150–300 mg
Healthy range	1–2 $\mu\text{mol/L}$	Optional

THIS DOCUMENT IS INTENDED FOR HEALTHCARE PROFESSIONALS ONLY. IT IS NOT INTENDED FOR CONSUMER USE.

All information are substantiated/supported by data on file which are available upon request.

### HEALTHY HEART FUNCTION

- Produces large amounts of ATP (energy)
- Supports heart contraction, relaxation, and molecular synthesis

### IMMUNE HEALTH

- Anti-inflammatory
- Supports energy production for immune cells and post-infection recovery

### FERTILITY HEALTH

- Improves sperm motility, morphology and sperm count
- Improves egg quality and quantity
- Improve hormone levels among infertile females

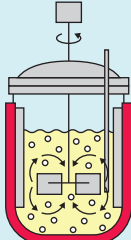

### VASCULAR HEALTH

- Essential for nitric oxide production
- Improves endothelial function
- Improved blood vessel health and increased circulation

# About Kaneka and Ubiquinol

## The Kaneka Ubiquinol advantage

<p><b>KANEKA CORPORATION</b></p>  <p><b>JAPAN 1949</b> Pharmaceutical product manufacturer</p>	<p><b>RESEARCH AND DEVELOPMENT</b></p>  <p><b>2007</b> Stabilised Ubiquinol without oxidation</p>	<p><b>MANUFACTURING</b></p>  <p>Unique, patented natural yeast fermentation process</p>	<p><b>SAFETY &amp; QUALITY</b></p> <p><del>CMO</del> <del>Solvents</del> <del>Petrochemicals</del></p>  <p>More sustainable and kinder to the environment</p>	<p><b>KANEKA'S UBIQUINOL</b></p>  <p>Ubiquinol is stable and clinically researched</p>

## The exclusive global manufacture of Ubiquinol

Kaneka Corporation, established in 1949 and headquartered in Japan, in a country famed for its contrasting blend of ancient traditions and modern technology, provides diversified products including pharmaceutical intermediates and food supplements.

Since 2007, Kaneka has commercially manufactured the only 100% natural yeast-fermented ubiquinol that is bio-identical to that produced naturally in the body.

Kaneka adapts the Japanese philosophy of "Kaizen" (かいぜん), using constant incremental changes for the better, demonstrating a commitment to quality, efficiency and the pursuit of perfection in their work.

When purchasing ubiquinol products, remember to look for the **Kaneka logo** - a symbol of high quality and authenticity, ensuring you're choosing a product you can trust.

## Raw material range and specification

Raw material	Appearance	Application
Kaneka Ubiquinol™ Over 96% oil soluble powder		Softgel capsule 
Kaneka Ubiquinol™ Stabilized Powder (P30) 30% air-stable, encapsulated, water-dispersible powder		Hard capsule Powder sachet Ready-to-drink beverage 
Kaneka Ubiquinol™ Softgel Capsule 100 mg and 50 mg Ubiquinol softgel capsule		Softgel capsule 

## Ubiquinol actions

**ENERGY PRODUCTION**

The standard recommended dosage to help build your body's Ubiquinol levels is 100–150 mg a day.

100 mg is equal to:

133 tbsp olive oil	5.7 kg chicken
60 avocados	3.4 kg red meat
50 cups spinach	120 cans sardines

**ANTIOXIDANT**
