

2023 Kemin Intestinal Health Symposium

Kemin Intestinal Health offers a comprehensive portfolio of high-quality and science-based nutritional ingredients to fuel the potential of livestock, poultry and equine. Our solutions are ecologically responsible, tailored to your needs and support the immunity, gut integrity and microbial balance of your animals.

The fifth-annual Kemin Intestinal Health Symposium will include presentations from respected industry experts across the poultry, swine, dairy, beef and equine industries on informative topics that support the key pillars of intestinal health and provide holistic industry insights. Tune in to learn more about consumer trends related to sustainability and animal welfare, the importance of water quality and combatting biofilm, inflammation and leaky gut and more.

We look forward to seeing you (virtually) in October!
